The architect's plans have been accepted by the Diocesan Building Department. The permit application to the Town of Brookhaven has been signed and given to the architect to submit to the appropriate Town offices.

The bid packages have been prepared by the Diocese and sent to the approved contractors who are required to come to a site walk through. From there, they will have a set time to submit their bids. The company we select will work with us to set the actual construction schedule, which we will share with you.
