The contractors came on June 20th for the site inspection of our first project: replacement of our front entrance bridge. The Diocese has received the bids, they sent 2 bids to us to review. They also will assess all the bids and offer their recommendations. The next step will be to arrange preliminary meetings with the contractors we agree on and review their bids with them. After that, a decision is made in conjunction with the Diocesan Building Office. The company we select will work with us to set the actual construction schedule, which we will share with you.
