The times of the separate meetings with two contractors who offered bids on our church entrances project are just about set. With various vacations and five parties involved, (Parish, Diocese, Architect and two Contractors), there is a lot of back and forth. But it looks like they will happen in about a week. Because of the way that the front "bridge" was built, there are very specific concrete and steel demolition and construction issues that need to be addressed at those meetings. These are very serious issues and we have to be completely satisfied with their answers.

Also, bids for the removal of the tree growing over the oil tank are being solicited. (Project #2)
