

# Campaign Catch Up

July 21, 2019

Vol II Edition 24

## Total Pledged: \$857,880

## 1<sup>st</sup> Part of Deck Battened Down

On Monday, the base concrete for the bridge deck was poured over the steel deck. The weather was perfect and there were no problems. As of today (Tuesday) we await the backfilling of the hole where the new sidewalk with wheelchair access will stand (lay?). Installation of the insulation and wirework for the for the ice melting system should be evident as you attend today.

Bids were due on Wednesday for work on the auditorium restrooms and kitchen. This coming week, we will be reviewing the bids received and scheduling meetings with the finalists so we can award

the contract.

Finally, we have been informed that work on the gas conversion is scheduled for July 29th.

**Special Announcement:** During this reconstruction time, work has begun for the rear two side pews on both sides. They will be set further apart so that those who come to Mass with walkers can enter and exit more easily and have Holy Communion brought to them in a more dignified way. In addition, each rear pew will be shortened so that a wheelchair can be placed next to the pew and out of the aisle.

### Proposed Schedule of Work

PHASE I Fall 2018

**Approximate Cost: \$450,000**

- Replace the Church Entrance Bridge and Side Stairways
- Mandated Removal of the oil tank in the Parish Center and replace the Boiler
